

PROTECTION PERFECTED

2026 PRODUCT CATALOG

As a trusted leader in ballistic protection, we are proud to present our latest collection — where advanced materials, modern design, and mission-ready performance come together.

I am honored to introduce our cutting-edge armor solutions that redefine functionality, comfort, protection and appearance. At United Shield International (USI), we understand the critical importance of reliable protection in today's ever-evolving industry. Whether it's safeguarding the lives of military personnel, law enforcement officers, security, or fire/EMS, our commitment to quality and performance is unparalleled.

Our extensive range of armor solutions is the result of years of research, development, feedback, and testing. We employ state-of-the-art materials and advanced manufacturing processes to ensure that our products meet the highest standards of quality, durability, and performance.

From ballistic vests and carriers to hard and soft armor panels, we provide comprehensive solutions tailored to the unique needs of our end users.

What sets United Shield apart from our competitors is our passion and commitment to customer satisfaction. We pride ourselves on delivering personalized service and working closely with our end users to understand their specific requirements. Our entire team is dedicated to providing solutions that exceed expectations.

As we continue to push the boundaries of armor technology and design, we remain steadfast in our mission to protect our protectors, with quality being at the forefront of that mission. At United Shield, we believe in protecting what matters most - the lives of those who rely on our products.

Thank you for your interest in United Shield. We look forward to the opportunity to show you what makes USI the best option when it comes to your functionality, comfort, protection, and appearance.

Sincerely,

Brian Banducci
President
United Shield International

#protectingtheprotectors

Capabilities

United Shield International is focused on providing superior ballistic protection with immediacy and accuracy to professional end users throughout the world. Headquartered in Traverse City, MI USA with over 80 years of collective experience and expertise in design, implementation and manufacturing of ballistic body armor, helmets, plates, shields and EOD/IED protective equipment.

Helmets

Engineered with premium, state-of-the-art materials, USI helmets deliver superior ballistic protection while prioritizing comfort and wearability. Each model undergoes rigorous lot testing to meet and exceed international standards, ensuring reliable performance in the most demanding environments. Designed for durability, fit, and all-day comfort—protection you can trust when it matters most.

Duty Grade Protection. Mission Ready Performance.

Helmet Accessories

At United Shield International, we go beyond the helmet. Our full line of optional helmet accessories is engineered to elevate every mission — enhancing functionality, maximizing comfort, and reinforcing protection. From advanced mounting systems and visors to comms integration and ballistic upgrades, each accessory is built to perform under pressure. Whether you're customizing for tactical operations, riot control, or extended wear, United Shield delivers modular solutions that move with you — because your gear should work as hard as you do.

Hard Armor Ballistics

Decades of armor, built for the future. For over 20 years, United Shield International has been at the forefront of hard armor innovation—setting the standard in protection, performance, and precision. From our advanced manufacturing facility in Andover, UK, we hand-select only the highest quality materials, including ultra-high-performance UHMWPE, meticulously layering each component to engineer exceptional finished goods. Every plate, panel, and shield is a product of expert craftsmanship and relentless testing—because when lives are on the line, only the best will do.

Trending Products

Driven by mission. Defined by innovation. In a world where no two missions are the same, body armor must evolve to meet the moment. At United Shield International, we stay ahead of ever-changing threats and dynamic operational demands—engineering solutions that rise to real-world challenges. Explore our newest lineup of advanced armor products, designed with input from those on the front lines and built for peak performance when it matters most.

Helmet

Spec Ops Delta Gen II

SOD-IIIA-(color)-(size)

Our best-selling ballistic helmet, the Spec Ops Delta Gen II is NIJ 0101.06 Level IIIA tested and built for elite performance. Featuring a 2-way BOA® dial retention harness, 4D combat pads for unmatched comfort, a Unity® NVG shroud, and Picatinny rails, it delivers maximum protection with mission-ready versatility.

Shield

Phantom Evo

EVO-18x32-PHTM-ERT-WVP

The Phantom Evo sets a new standard in protection and maneuverability. NIJ Level III (RF1) rated, this ultra-lightweight shield features a flat surface design and ranks among the lightest rifle-rated shields in the industry. Engineered for speed, durability, and ease of deployment when every second counts.

Plate

Vanquish ICW

USIICPL-1150-10x12

The Vanquish ICW is a engineered to defeat a wide range of high-velocity rifle threats. Designed for use in conjunction with soft armor, it combines lightweight strength with an ergonomic profile, ensuring superior comfort and mobility without compromising protection. Only 2.1 lbs.

Carrier

UPT Moody

UPT-Moody-(size)-(color)

The UPT Moody has progressive styling and function with built in storage to hold all the necessary equipment for daily use. Quick deployment of a top loading rifle plate and optional accessory zipper for the large expandable upper chest pocket provides easy and secure access to notebooks, phones, and other immediate use tools.

MXV Shields

Maximum visibility is the focus of the MXV shield line. Providing users with focus, confidence, mobility, and ballistic protection during operations. United Shield offers a wide selection of various shapes, sizes, handles, and lighting options to exceed operator expectations. While other United Shield families are categorized by shape, the constant in the MXV family is the maximum size viewport.

Peripheral Vision

Extreme peripheral and downward vision clearance.

Maximum View "MXV"

The largest viewport in the industry offering 77 square inches of viewing area.

Lightweight

Lightweight materials for maneuverability.

Ultra Concealable Cummerbund Sleeve

UCCS is designed to work in conjunction with concealed carrier systems. The UCCS will hold ballistic cummerbund panels providing 360° of coverage and comfort. Complete coverage regardless of extra clothing under the carrier or weight gain, the UCCS has you covered and protected.

Spartan Gen II Plates

The Spartan Gen II is a high-performance, ultra-thin, and lightweight plate engineered for discreet protection against handguns, knives, and explosive fragments. Rated to NIJ Level IIIA 0108.01. The Spartan Gen II is offered in curved, flat, and female-curve configurations for a precise, comfortable fit. *Multiple sizes available.

Core Concealable

Core Concealable Carrier

The Core Concealable carrier is a base layer carrier purposely designed when ultra low visibility is required. This carrier is made with 4-way stretch material with anti-microbial, moisture wicking lining that helps keep you cool. This compression style shirt carrier allows for a secure fit when wearing armor in any scenario.

ACC

Advanced Concealable Carrier

ACC is specially designed to be worn under the dress/uniform shirt. The ACC features six points of adjustment within the straps of the carrier. It is designed for every day wear, while offering optimal comfort.

SPACC

Six Point Adjustable Concealable Carrier

SPA concealable carrier is specially designed to be worn under the dress/uniform shirt. The SPA features six points of adjustment within the straps of the carrier. It is designed for every day wear, while offering optimal comfort.

UPT Moody Carriers

The UPT Moody line sets itself apart with a customizable front admin pocket, designed to adapt to agency needs. This versatile panel accommodates badges, name tags, and other required insignia, making it simple to display critical identifiers in the field. The admin pocket panel is the defining feature that differentiates each Moody variant from the base UPT Moody carrier—ensuring every agency can find a design that checks all their boxes. UPT Mountain Carriers

UPT Mountain Carriers offer flexibility and performance where it counts. Choose between classic pleated pockets or a MOLLE front—both allow badge placement and let agencies tailor the look to their standards. Designed with officer wellness in mind, these external carriers shift weight off the duty belt and, improving comfort and long-term posture support without sacrificing function.

UPT Turnout Carriers

UPT Turnout carrier - one size. All missions. The UPT Turnout is a one-size-fits-most outer carrier engineered for adaptability, comfort, and mission-ready modularity. Featuring 360° MOLLE, our unique G-hook system, and bird-mouth closures, adjusts from 30" to 72" in girth—fitting most operators without compromise. Integrated armor coverage and full UPT line compatibility make it ideal for both professional daily wear and critical incident response.

Bird Mouth Closure – A flap-style Velcro® macro adjustment system that allows operators to quickly lift and secure the cummerbund for a precise, stable fit.

G-Hook Ladder System – Built into the rear of the cummerbund, the G-Hook ladder design provides large-scale adjustments, enabling operators to fine-tune sizing.

Extended Girth Adjustability – With a range from 30" to 72", this feature ensures a comfortable, secure fit offering a wide variety of body types and operational needs.

UPT Accessories

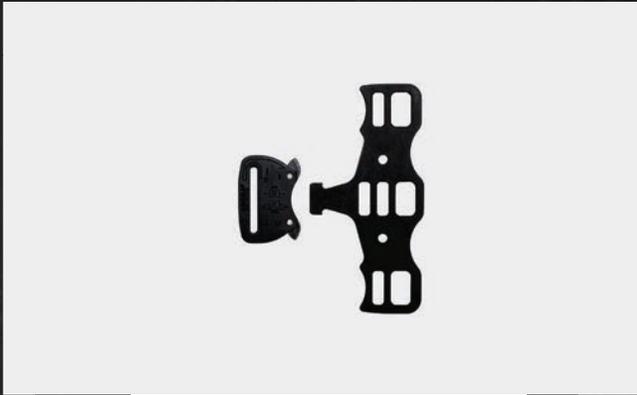

UPT carrier accessories are fully compatible across the entire UPT carrier line, giving users the flexibility to mix, match, and adapt. Designed with ergonomics in mind, the UPT accessory line adds customizable functionality to meet the demands of any mission.

Hand Warmer

Engineered for cold-weather patrol and tactical operations, the UPT Hand Warmer integrates seamlessly with all UPT carriers via G-Hook attachment. When not in use, it tucks neatly beneath the carrier for a streamlined profile. The fleece-lined interior delivers superior warmth and comfort, while the zippered compartment accepts hand warmers or secures small essentials on the move.

Upgraded Cummerbund

The upgraded cummerbund features integrated storage pockets that keep mission-critical items within immediate reach. Ideal for carrying extra ammunition, medical supplies, radios, or other essential equipment, it allows operators to stay organized and efficient in the field. Unlike the standard MOLLE-only cummerbund, this upgraded version offers both attachment capability and secure internal storage, ensuring gear remains accessible and stable during high-mobility operations.

Laser Cut Carriers

Our laser cut armor system supports a clean, professional appearance and is ready for hard use conditions. The core of this proprietary laser cut material is that it provides increased strength and durability in a lightweight fabric. Available with AustriAlpin buckle or Aspetto Kwiq clip.

Patrol Laser Cut

UPT-PatrolLC-AA-(size)-(color)

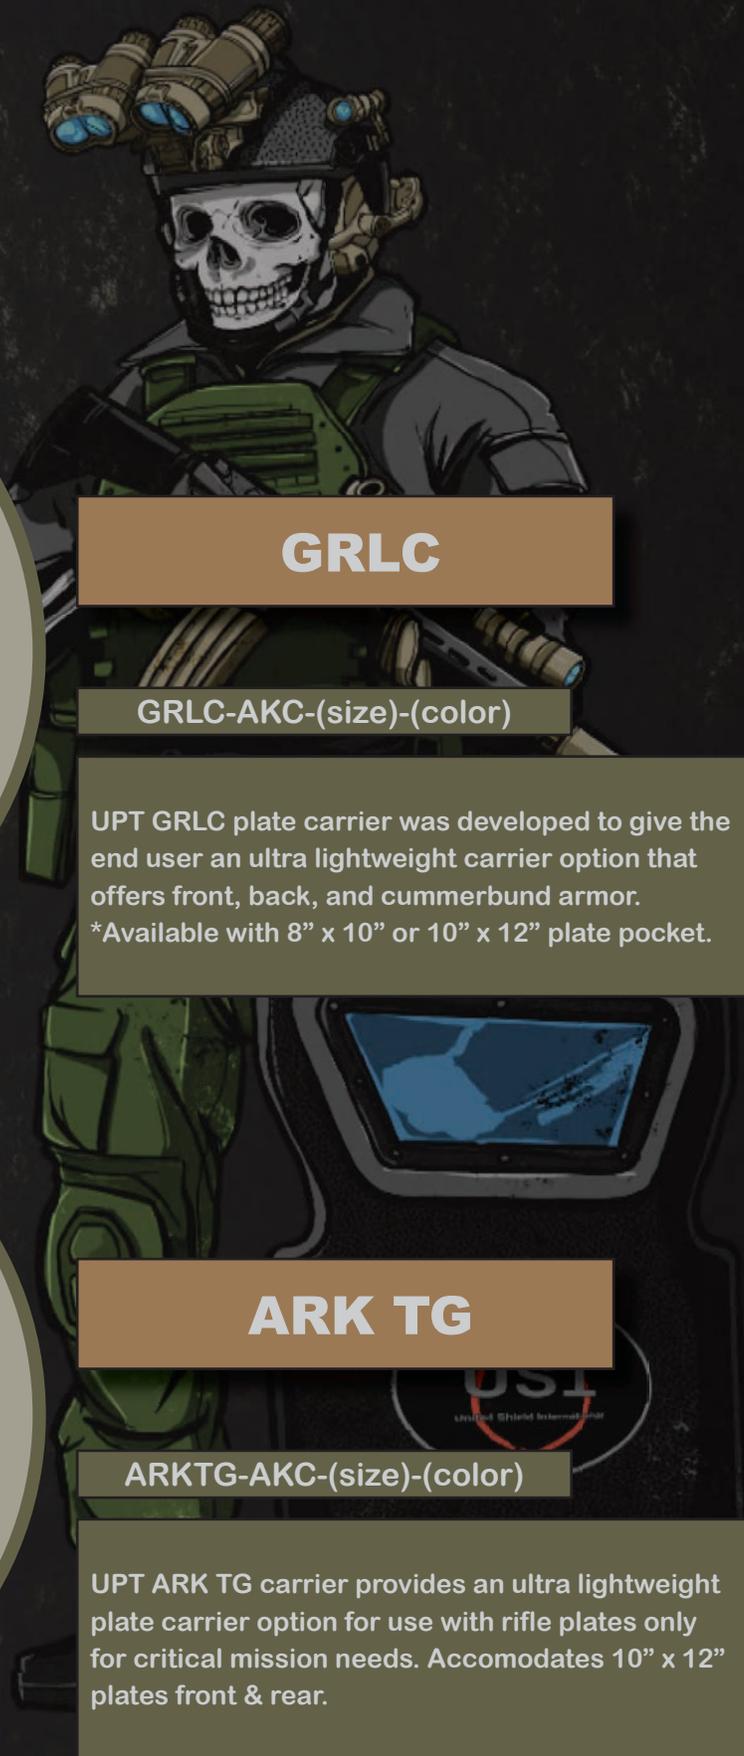

UPT Patrol Laser Cut carrier includes uniform pockets on the plate pocket for a professional appearance, while still offering the ability to up-armor.

MOLLE Laser Cut

UPT -MOLLELC-AA-(size)-(color)

UPT MOLLE Laser Cut offers 360° laser cut MOLLE attachment points for modularity to adapt to the mission needs with maximum flexibility.

GRLC

GRLC-AKC-(size)-(color)

UPT GRLC plate carrier was developed to give the end user an ultra lightweight carrier option that offers front, back, and cummerbund armor.

*Available with 8" x 10" or 10" x 12" plate pocket.

ARK TG

ARKTG-AKC-(size)-(color)

UPT ARK TG carrier provides an ultra lightweight plate carrier option for use with rifle plates only for critical mission needs. Accomodates 10" x 12" plates front & rear.

U-Zip Carriers

The U-Zip front opening armor system allows users to don and doff using a front zipper. Avant-garde features and design allow the use of optional alternative closure systems other than the zipper. Many variations of the U-Zip exceed strict uniform policies while providing comfort, modularity, and customization.

SSAS

Enhance your loadout with USI's Tactical Accessories—fully compatible across the entire UPT carrier line. Engineered with speed and agility in mind, these mission-ready add-ons support seamless up-armoring while providing ergonomic comfort. From modular pouches to rapid-deploy attachments, each accessory is built to keep operators adaptable, protected, and ready for any scenario.

The Savage Scalable Accessory System (SSAS) is built to give operators maximum flexibility and protection, no matter the mission set. Designed for rapid deployment, the SSAS upgrades a standard vest into a full tactical system within seconds. This independent, one-size-fits-most platform features a ballistic collar with multiple attachment points for throat and bicep protection, ensuring a secure fit for operators of all sizes. With adjustable sizing at the chest and torso, the SSAS provides comfort and mobility while increasing ballistic coverage.

Quick-attach options include: Standard Biceps, Structured Bicep Protectors, Throat Protector, and ID Panels.
